## Living a More Sustainable Lifestyle

From our Actions to our Transactions,  
We Control our Carbon Footprint

- How can your household have an impact on climate?
- Water heaters vs stoves: which appliance change saves more emissions?
- What are the hidden “energy hogs” in your home?
- How can you get the biggest “bang for your buck” out of your sustainable choices?

Presented by:

### **Dean Berg**

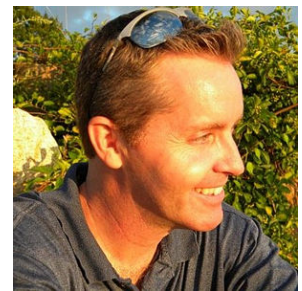

Founder, Path to a Green Home

and

### **John Livermore**

Northeast Director of The Center for Sustainable Energy  
Sustainable Marblehead Co-Founder and Board Member

**Tuesday, March 30**

**7:00-8:00 pm**
